Organized in March 1989 as a group of 30
garden railway enthusiasts, we now sustain
an annual membership of about 120.

Alex Osenbachs

Bill Thurston

Our club is a loosely organized, laid back group - which tends to meld in with garden railroading and the Pacific Northwest. There is a tremendous breadth in our modeling interests and approaches as represented by our involvement with multiple scales, varied railroad themes, radio control, steam boating, steam and electric modules and monthly breakfasts.

The club officers are also the Board of Directors. We have one annual business meeting in March. We meet monthly at a member's house to discuss items of interest, view a layout and run trains. The reason for our existence is to have fun and run trains indoor and outdoor.

We welcome anyone with an interest in model railroading!

Fred & Bernice Konkell

Emerald Heights Garden Railway Club

Once a year, PSGRS sponsors a day of clinics where we learn from experienced modelers. Some of the past subjects have been: "How to Build Buildings from Concrete"; "How to Build Curved Turnouts"; "Secrets to Resin Casting" and "Electronic Projects for Displays"

Payment confers member status to all family members residing within a household for which dues have been paid. The first year's membership includes 2 name badges. Each additional badge is \$20 per badge.
